## The world's most effective and safe Anti-microbial disinfectant, anti- bacterial & chemical cleaner

Capable of killing up to 99.99999% of Biological &  
Chemical agents, germs, viruses and bacteria

D7 Sanitizer is derived from aqueous-based decontamination technology that can rapidly neutralize highly toxic chemical and biological materials. It is a hydrogen peroxide-based formulation that also contains surfactants (i.e., soap), mild solvents, inorganic salts, and water.
